MR. MANUFACTURER . . . .

. . . *WE CAN HELP YOU!*

Sound selling requires a well-planned, skillfully-executed program that coordinates all of your sales efforts. Realizing the importance of this fact, we so plan and prepare your advertising that it will assure you of the maximum results from such efforts.

We are fully experienced and qualified to handle your entire advertising problem . . . for either consumer or industrial products in all mediums of advertising including newspapers, general and trade magazines, radio, out-door display, catalog and direct-mail, point-of-sale and publicity.

We can plan, prepare, produce and place complete advertising campaigns for you. In so doing, we are guided by the principle that the size of your advertising appropriation is of far less importance than **HOW** you use it!

***You are cordially invited to make further inquiries regarding our services. Stop in, write or call our offices. All inquiries are confidential and without obligation. No soliciting presentation made without request.***

# INTRODUCTION

---

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1946 edition of the Battle Creek City Directory. A new feature, the Manufacturers' Department, marks this edition.

Confidence in the growth of Battle Creek's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Battle Creek to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Battle Creek Directory will fulfill its mission as a source of authentic information pertaining to the city.

### Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 11 to 23, on white paper, presents lists of city and county officials; post office, public school and court Directories; statistical review; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 444, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Battle Creek, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 445 to 534. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 64, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Battle Creek. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Battle Creek, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 585 to 637, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium. A new feature of this section is the Manufacturers' Department.

### Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Battle Creek.

### The Battle Creek Directory Library

Through the courtesy of the publishers of the Battle Creek City Directory, a Directory Library is maintained in the offices of the Battle Creek Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,
Publishers.

Police department has 47 men, with 1 station and 14 pieces of motor equipment.

## General Review

At the confluence of the Battle Creek and Kalamazoo rivers, in southern Michigan about midway between Detroit and Chicago, in one of the country's most famous and productive manufacturing districts, lies the city of Battle Creek.

The business and manufacturing districts are scattered along the rivers and close to the railroads which serve the city. The residential portions of the city occupy mainly the higher lands which border the valleys of the two streams, and the fine, open prairie-like land just beyond. Ample in area, there is nowhere any crowding or congestion.

Tradition has it that there was some slight disagreement between the Red Men and the first white settlers—sufficient, at least, to fix the name, which now, after a lapse of nearly a century, has become better known than those of many larger and older cities.

Indeed, one of the most notable of many unusual things about Battle Creek is that it is called

### The Best-Known City of Its Size in the World.

And contrary to popular belief, this fame is not built on a single product. Minneapolis, flour; Detroit, automobiles; Rochester, kodaks; Grand Rapids, furniture; Pittsburgh, steel; Trenton, pottery; and many other instances might be mentioned, where one line of manufacture has made a city famous.

But the well-informed resident of almost every civilized country in the world will instantly associate with the name "Battle Creek" their knowledge that in addition to the wonderful, health-restoring work done by the great Sanitarium, prepared health foods, and printing presses and other kinds of machinery, are exported to many foreign lands.

Without a doubt a factor largely responsible for the economic stability of the city is

### A Great Diversification of Industries.

A recent survey showed 71 industries. The larger of these industries produce gas stoves, metal stampings, steam pumps, cereal products and health foods, packaging machinery, material-handling equipment, printing presses, boxboard and paper cartons, power farming equipment, therapeutic appliances, brass castings, warm-air registers and furnace fittings, electrically-welded wire and steel products, including camp stoves and display fixtures; and automobile valves. These and smaller manufacturing concerns are of such a stable nature and operate on such a sound economic basis that steady employment is the result. Slight seasonable fluctuations in employment are counterbalanced by the favorable conditions which obtain.

Battle Creek is situated at the crossing of two great railroad lines, the New York Central System (Michigan Central R. R.), and the Grand Trunk Western (westerly outlet of the Canadian National Railways), and is division headquarters for the latter, as well as the home of its well-equipped locomotive shops. This city is recognized as a tourist stop-over point by both these lines. Numerous trains daily offer excellent rail services. Quick and easy transportation is also afforded by several lines of passenger busses, while the splendid system of paved roads which has made Michigan justly noted, renders motoring a real delight and makes the city readily accessible.

Out of a population of 43,453 in 1940, 92% of the citizens were of American birth, and 75% of them owned their homes. Naturally this makes for a beautiful city. Even the casual visitor remarks on the miles of lovely shade trees and well-kept lawns in Battle Creek.

Within the city limits are 159.2 miles of streets, with 77.3 miles paved; a modern water system, with two sources of supply and two independent pumping stations; sewers, gas mains, electric lights and power, and up-to-date Bell Telephone system. The public utilities of Battle Creek have kept pace with the city's development, offering good service at reasonable rates.

Sixteen parks of unusual beauty, covering 393 acres, adorn the city and its outskirts. Especially notable is the Leila Arboretum, of 120 acres, regarded by authorities of national note who have been consulted in its planning, as a spot of unusual beauty and vast possibilities for future development.

Irving Park, with its rock gardens, winding waterways and artistic little bridges, is full of lovely surprises. John W. Bailey Park, at the edge of the city, is fast becoming a remarkable civic playground. And on the shores of Goguac Lake, Willard Park's bathing beach is a popular spot during the summer months.

Settled by those hardy pioneers who dared the dangers and hardships of a new country, it is small wonder that in the years that followed, religion, patriotism and education found a large degree of consideration in the growth of Battle Creek.

In its public school equipment, Battle Creek is materially in advance of most cities of its size. The Ann J. Kellogg School is especially organized and equipped to advance the physical, as well as mental, welfare of crippled children. Because of its unique plan and special facilities, this school has already acquired national fame.

Church edifices of more than ordinary architectural excellence, and others less pretentious, give homes to many religious denominations.

Three large national banking institutions have commodious buildings in which to carry on the financial activities of a thriving community. The resources of these institutions bespeak their soundness.

The Battle Creek Sanitarium, in addition to restoring health and teaching correct habits of living to thousands from all over the world annually, has also trained and sent to remote, uncivilized lands, numerous medical missionaries.

In this institution were first developed and used the special cereal foods which now form so large a portion of the output of Battle Creek's immense food factories. Incidentally, too, this answers a question often asked, as to how the cereal food business happened to be developed in Battle Creek. These foods were devised to form pleasing additions to meatless menus—the Battle Creek Sanitarium being a vegetarian institution.

A recent addition to the city is the Percy Jones General and Convalescent Hospital, a 2,500-bed Army hospital, Midwestern counterpart of the well-known Walter Reed Hospital in Washington, D. C., the last word in modern equipment and staffed by outstanding specialists in the various branches of the medical profession.

Calhoun County has 85 lakes. Of these, four are within ten minutes' drive from Battle Creek, while the largest, Gull Lake, is about fifteen miles to the northwest. These lakes afford excellent bathing and fishing facilities.

Fort Custer, a permanent Army Post of over 16,000 acres, lies five miles west of the city. It contains one of the finest small-arms training grounds in the country. On the reservation is located U. S. Veterans Facility No. 100. Just east of the post is the State American Legion Hospital.

At Wintergreen Lake is the Kellogg Bird Sanctuary, rapidly becoming one of the most interesting spots for bird-lovers in America.

In common with other modern cities, Battle Creek is "air-minded." The Battle Creek-Kellogg Airport, leased to the War Department as an Army air base during the war, affords regular air mail, express and passenger service during normal times. This is one of the outstanding airports in the country.

Here, community consciousness—barely awakened in many cities—has found expression in such activities as league baseball, soft ball, golf, tennis, swimming, horseshoe and bowling teams—the City Civic Recreation Department directing the competitive activities of over 125 teams; and the Three-Quarter Century Club, which is gladdening the sunset days of so many elderly people.

The Youth Building, overlooking Irving Park, represents an investment of $350,000. It is the headquarters of the City Civic Recreation Department, and the Battle Creek Boy Scout Council, with which are affiliated more than 3,000 Scouts.

These and many other advantages, in which Battle Creek citizens take justifiable pride, make the city an especially desirable place in which to live and establish a permanent business. The success of existing industries is evidence, too, that Battle Creek ranks high in those factors which make for fortunate industrial location.

Inquiries are invited and will be cheerfully responded to if addressed to the Battle Creek Chamber of Commerce.

*Out of Sight • Out of Mind*

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

**The City Directory is the natural medium for keeping a business or product name in the spotlight.** ***Insist on being well represented in its pages.***

## Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

## 1946

Copyright, 1946, by R. L. Polk & Co.

---

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled in with named streets in their regular Alphabetical order.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The △ preceding names denotes houses and places of business having telephones.

*"The Cheerful Service Store"*

# The Services of R. L. Polk & Co.

**DIRECT MAIL ADVERTISING FOR THE COUNTRY'S LEADING INDUSTRIES**

• Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's greatest industries are Polk's long-time clients. Polk's direct mail advertising service is *complete . . .* consultation, research, testing, creating, printing, producing, and distributing to *selected prospects.* A live organization of experienced business men who know the principles of selling. Production plants are geared to handle better than two million mailings daily.

*The direct mail advertising services of R. L. Polk & Co. are available to American business, dedicated to helping them produce the increased sales volume necessary to our modern economy.*

---

**AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS**

• Since 1922 Polk has been statistician for the Automobile Industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model is the only annual inventory of the country's automotive equipment. Polk's new passenger car and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory.

The first business census of the U. S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town in the U. S.

*These statistical services are available to American business to enable them to plan intelligently their production, distribution and sales.*

---

**SURVEYS AND CONSUMER RESEARCH**

• Polk's facilities are the largest in the country for fast, accurate research, surveys, and analyses, built on experience gained through nationwide home and business canvasses each year. Polk's Branch Plants, Branch Offices, and associated offices in strategic cities are staffed with trained personnel, *able to move fast,* on any job.

---

**NATIONAL MAILING LISTS AND MAILING SERVICES**

• The people of America are in Polk's list files . . . all businesses, all trades, professions and vocations . . . obtained through personal canvass. Polk also lists all passenger car, truck, commercial car, trailer, motorcycle owners—by make of car, by model, by year, by state, county, town. Know-how gained in filing more than 75 million names annually is available to Polk clients, for any kind of list or mailing service. Facilities for multigraphing, ditto, photo-offset, letterpress printing, reproduction of forms, questionnaires or letters and complete addressing, imprinting and mailing services are available at Polk Headquarters or Branch Production Plants.

*These lists are the customer lists for the new products of Peacetime America . . . the prospects for every industry's production. Polk can reach them DIRECT for you, with the right kind of sales message.*

---

**DIRECTORY PUBLISHERS FOR 750 CITIES AND TRADES**

• For seventy-six years, Polk City Directories have been the accepted basis for population listings in hundreds of American cities. Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the United States and Canada. Polk's Bankers' Encyclopedia is the outstanding Directory in the banking field. There are Polk offices in 30 principal American cities.

*Polk directories are current population inventories for the cities of the Country . . . tracing the shifting of America's families from wartime to peacetime endeavor.*

---

**WAR WORK**

• After Pearl Harbor, the major plant service and skills of R. L. Polk & Co. were at the disposition of the armed services, for war work. Polk was entrusted with two of the largest and most complicated war jobs, for Army Ordnance and Air Corps, requiring tripling of Polk's plant space, plus the services of most of Polk personnel.

*With Peace, the Polk plants and the Polk skills have been released for the job of helping the industries of America rebuild a stronger business structure, and upon these skills will be built a new and even greater Polk organization!*

---

**R. L. POLK & CO.** *Headquarters* 431 HOWARD STREET, DETROIT 31, MICH.

*BRANCHES*—NEW YORK, CHICAGO, PHILADELPHIA, CINCINNATI, CLEVELAND, ST. LOUIS

## A Unique Service Provided By The Publishers of Your City Directory

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

**Battle Creek Chamber of Commerce**

# ELEVEN MILLION DOLLAR ASSETS

The certified audited balance sheet of this Exchange at the Automobile Club of Michigan shows the unprecedented growth of assets to more than $11,000,000 on December 31, 1945. And what is more important it shows free **SURPLUS** over and above all reserves of more than $3,000,000, the largest surplus in the entire history of the Exchange.

The fact that in Michigan this Exchange does more business with repair men, buys more parts and repairs more cars than the combination of any other two such organizations is significant.

Now, more than ever, the fraternal widespread AAA services and Exchange facilities are important to have standing by—to keep 'em rolling—if rolling is in any way possible.

It's the combination that counts. Club services and Exchange protection—unique and alone in the field—there is no substitute.

***Detroit Automobile Inter-Insurance Exchange***

### *Out of Sight! • Out of Mind! • Out of Business!*

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

**The City Directory is the natural medium for keeping a business or product name in the spotlight.** ***Insist on being well represented in its pages.***

## If You Are in a BUSINESS FOG In the Aftermath of War

●

Let the City Directory help guide you to reorientation. It is the natural key to things as they are after the great upheaval. A recent Directory will provide the basis by which business can obtain a new grip on markets and a new appraisal of prospects. Pre-war guides of nearly all kinds are deader than a dodo today. Business now enters a new era of great possibilities. The City Directory hews to the line without propaganda, and new editions of this service reveal the great physical changes that have come over cities and communities during the past five years.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

# MANUFACTURERS' DEPARTMENT

# BATTLE CREEK

## MICHIGAN

## 1946

*"Best known city of its size in the world"*

This is an accepted fact which has been achieved to a large extent through the international renown built up by the successful diversified industry of Battle Creek. This enviable reputation is the result of continuous advertising, quality products and fair dealings.

Battle Creek products were found around the world not only in peace time but during the war, as well, as they played an important role in achieving victory in all theatres.

The conversion to the manufacture of peace time products is practically completed and the industrialists join with civic leaders to make Battle Creek "A better place in which to live and do business."

# MILLER'S

# KIBBLES

## One of a Famous Family of Dog Foods

For the all around day-to-day basic diet, many owners prefer to standardize on Miller's Kibbles. It's the easy, scientific way to make certain your dog gets meat meal, cereals, vitamins, and minerals—the things he needs for good health—in well-balanced proportions. Supplied in 28-ounce cartons and 5-pound economy bags.

*Also Manufacturers of*

MILLER'S RATION (dog meal)

MILLER'S EATIES (pellets)

MILLER'S BISCUITS

and

MILLER'S PUPPY MEAL

## Made by

# Kellogg's IN BATTLE CREEK

***The World's Largest Manufacturer of Ready-to-Eat Cereals***

**CORN FLAKES**—A big bowl of Kellogg's Corn Flakes with fruit and lots of milk. It gives you—Vitamins, Minerals, Proteins, Food Energy and delicious? —well, you know Kellogg's FLAVOR!

**RICE KRISPIES**—Snap! Crackle! Pop! That means Kellogg's Rice Krispies with their mellow, tantalizing flavor born of oven-popping and gentle toasting. Serve zesty Rice Krispies often—a rare treat everytime!

**PEP**—Kellogg's Pep is extra rich in vitamins B1 and D—the 2 vitamins hardest to get in ordinary meals, and nothing so good has any business being good for you. Try it. We know you'll like it!

**ALL-BRAN**—A Natural Laxative Cereal. Join the "Regulars" by eating this natural bulk-producing food. Use it in delicious recipes, too, as printed on the backs of the cartons.

**KRUMBLES**—Crisp shreds with a flavor totally unlike any other cereal. Made from nourishing whole wheat with all of the bran retained. High in food value and easy to digest.

**SHREDDED WHEAT**—Delicious biscuits with a natural nut-sweet taste. Made of whole wheat, thoroughly cooked, shredded and toasted. New 2-biscuit size just fits the cereal bowl.

**RAISIN BRAN FLAKES**—Crisp, golden flakes with sweet, tender raisins added. Fruit and cereal right in the same package all ready to serve.

**40% BRAN FLAKES**—A tempting wheat cereal with 40% bran retained for its bulk-forming properties which so many diets lack. It's a pleasing balance of being good and being good for you.

**VARIETY PAC**—6 different cereals, 10 generous packages . . . all in one box. Makes breakfast fun! Every member of the family can choose his favorite cereal —and they're all delicious.
